great. Expect that this might come up in your Chuck Gardner meeting, and if not, in next Thursday's "Nawi" meeting - which I will actually miss (Mak and I are having a Spa Day; as well as you).

I need some time to answer that question. Will get back to you tomorrow. My initial response is that we need a package of information that has a map showing the geographic location of alternative pipelines/canals and intake structures. And we need a detailed description of project operations alternatives. A cell in a table is probably not enough information describing how operations work. It would be most helpful for me and some others to describe exactly what information we're looking for instead of saying 'this isn't it.' I'll try to have something to you by tomorrow.

I missed the part of today's BDCP call where they discussed Alternatives (as there was a phone # snafu).

Attached is a matrix of Alternatives, such as they are. I believe lead agencies are wanting to get agreement on these this month. So we can expect that request to come to Corps and us for 404 purposes. Erin - what more would we and Corps like to see, beyond this matrix, to make that decision?

Being discussed at this morn meeting

Beth
(916) 653-2784
